

<http://ourpact.com/>

OurPact Jr. is the child Android parental control app that pairs to your OurPact iOS parent dashboard. With OurPact Jr. parents have the ability to block Internet, block all 3rd-party apps and schedule device use on their child's Android devices.

Please keep in mind OurPact Jr. is a child app, and is intended to be installed on a child's Android device and paired to an existing OurPact parent account on iOS. OurPact Jr. is also FREE to all parents in the Google Play Store.

Set Up is easy.

1. Grab your child's Android device.
2. On your child's device, open an Internet browser and go to pair.OurPact.com. Just like on iOS.
3. Once you've reached the pair site, select **DOWNLOAD**.
4. In the Google Play Store download OurPact Jr.
5. After downloading OurPact Jr. open the app and log in with your username and password.
6. Next enter your child's name and select **PAIR**.
7. **You will be prompted to TURN ON USAGE ACCESS.**
8. **From the Access Panel, select OurPact Jr.**
9. **Toggle On PERMIT USAGE ACCESS and return to OurPact Jr.**
10. Now select **MANAGE THIS DEVICE**.
11. **ACTIVATE** the Device Administrator.
12. **YOU'RE DONE.** Now your child's Android device is paired to your OurPact Parent Dashboard.
