Inter-Agency Training Brochure

Bromley Safeguarding Children Board

April 2019

Introduction

This brochure provides details of Bromley Safeguarding Children Board (BSCB) courses for 2019-20 designed to assist agencies to meet their responsibilities in respect of safeguarding children.

Audiences for our training include the whole of the children and young people's workforce in Bromley and those working with adults who are parents or carers (for example, adult psychiatrists and probation staff). It includes paid staff and volunteers working in the statutory, voluntary, community and independent sectors.

Training together can make a significant contribution to a shared understanding of roles and responsibilities, enhancing communication between professionals and others working with children and families, as well as improving effective working together based on sound relationships.

The Bromley Safeguarding Children Board (BSCB) has local responsibility for coordinating partnership efforts and scrutinising the effectiveness of how they work together in Bromley to improve outcomes for children and young people.

The BSCB depends on everyone, whether professionals or volunteers, parents or members of the public having an understanding of their own personal or professional responsibility to safeguard children and being alert and active in carrying this out. The priorities are set out in the BSCB Business Plan which is reviewed and updated annually and is available at www.bromleysafeguarding.org.

Each agency in Bromley is responsible for ensuring that their staff are competent and confident in carrying out their responsibilities for safeguarding and promoting children's welfare. This includes ensuring staff have access to appropriate training and that the training is regularly updated at least every three years.

The BSCB monitors and evaluates the effectiveness of training, including multi-agency training, to safeguard and promote the welfare of children. In Bromley, this responsibility is devolved to the BSCB Training Sub Group which is accountable to the BSCB's main board.

The Training Sub Group monitors the uptake of training and regularly evaluates the BSCB training offer to ensure that it addresses local need and emerging local and national issues. We do this in a number of ways. Everybody attending one of our courses will be asked to complete an evaluation at the end of the session of their experience of the content, the trainer and the learning environment. The BSCB will also send out a 2 month post evaluation form to the attendee and his/her manager for feedback on what has been learnt and applied in practice in the workplace. The manager will be asked to send an explanation in writing if this is not completed for our records.

The BSCB Training Programme, booking form, Training Strategy and other key information can be found in the 'Training and Resources' section of our website www.bromleysafeguarding.org

Competence Still Matters

The London Safeguarding Children Board produced guidance for agencies in 2014 on safeguarding training for employees and volunteers setting out responsibilities for all organisations in Competence Still Matters: safeguarding training for all employees & volunteers a guide to the responsibilities of all agencies.

The framework has been designed to assist all employers, voluntary organisations and LSCBs to meet the minimum requirements for the provision of safeguarding children training. It provides a framework for single and multi-agency training to enable professionals, volunteers, agencies, organisations and services to acquire the skills and knowledge to work effectively. It promotes consistency across the London boroughs for the delivery of such training whilst allowing for the degree of flexibility required to meet locally identified needs. Whilst the implementation of Competence Still Matters is not mandatory, it represents a standard of good practice and helps BSCB and our partner organisations fulfil our responsibilities as outlined in Working Together to Safeguard Children.
