

With the COVID-19 situation, it is essential that we provide you with critical virtual learning, development and support. We understand that these are unprecedented times and we are here to help you develop in this new virtual way of working.

Safeguarding is everybody's responsibility.

Safeguarding training courses can be accessed via the **Me Learning website**. Courses are appropriate for those that may need a refresher or they can be used as an induction. The courses are aimed at professionals and frontline staff who work or have contact with children, young people and their families and/or adults at risk within the London Borough of Bromley, however some training is applicable to all staff.

See the all staff training highlighted in purple below.

Most courses take between 60 to 90 minutes to complete. If you can't complete the course in one go, it will save your progress and you can resume the training when you are ready. Successfully complete the quiz at the end of a course to achieve your certificate, (you can have more than one go to try to get a higher score!).

These courses are available **FREE** to all within Bromley.
